

DEPENDABLE ATTRACTIVE CABINETS
FOR DISPENSING DRAFT BEER

DESIGNED AND BUILT TOUGH

Perlick direct draw dispensers are designed to take all the punishment full kegs can dish out. The fully reinforced floor, super heavy-duty door sill and thick two-inch foamed-in-place side walls add up to the most solid and durable cabinets available today. Mount our dispensers on casters or legs and they won't develop sagging floors or bent door sills. Available with black or stainless steel doors and grille.

Always raising the bar.

SIZES AND STYLES TO MEET YOUR NEEDS

Perlick can provide a cabinet for almost any dispensing requirement. These direct draw dispensers are available in sizes and styles with options to fit any beer dispensing need. They can be totally portable (see page 4) or used for under the counter installations. Available with black or stainless steel doors and grille.

DRAFT BEER ON THE GO

ROLL OUT THE DRAFT BEER

Perlick's portable draft beer dispensers roll out to serve beer wherever a crowd gathers. Both the multi-keg Concessionaire and the single-keg portable units are completely self-contained and require no plumbing.

TWO, THREE OR FOUR-KEG Concessionaire available with stainless steel doors and grille only. Impact-resistant bumpers protect cabinet from damage. Access panel conceals 5lb. CO₂ drum (not inc.), regulator and liquid waste tank. Big 5" casters for easy maneuverability. All doors lock to prevent tampering.

SINGLE-KEG MODEL FOR SMALLER GROUPS

Perlick's single-keg direct draw dispenser is a compact version of our larger units. Available with black or stainless steel door and grille. Mounted on 3" casters, the single-keg dispenser is perfect for venues where space is at a premium. And, it's also a great dispenser for home use. Also available for undercounter installation.

Always raising the bar.
